Dear Mr. Wadlington:

Curtis

On behalf of the Office of Minority Health (OMH), I would like to take this opportunity to express our appreciation to you for your participation on the Minority HIV-Education/Prevention Grant Review Panel held August 25-29, 1991. Your contribution to the reviewers' deliberations was essential in helping OMH select projects for funding during the 1991 grant cycle.

We received and reviewed 232 applications. 101 applications were recommended for approval, and 131 were disapproved. Funding decisions regarding approved applications are still pending.

We also wish to thank you for your cooperation in adjusting your schedule to allow you to participate on this panel. We greatly appreciate your commitment of time and effort as well as your professional insight.

Sincerely yours,
