

February 4, 1987

Mr. James Charles Roberts
AIDS Educator/Counselor
AIDS Control Program
Health Promotion/Disease Control
City of Philadelphia
Department of Public Health
500 South Broad Street
Philadelphia, PA. 19146

Dear James:

Thank you for your recent communications confirming our dates for what sounds like a thorough in-service for our minority staff and volunteers.

As I had previously mentioned, in our last Minority Coalition meeting with the City, the Executive Committee of IMPACT had reached a split decision regarding their participation. However, after careful consideration, they are now interested in participating. Our in-service should be well attended. I am most please that ACTION AIDS Minority representatives will also join us.

By February 13, 1987, we should have a total number of participants. My reason for moving our confirmation date is to allow IMPACT time to have their regular committee meeting on February 10, 1987, at 7PM. I will contact your office regarding the total number of participants, who plan to attend all three sessions.

As I had previously mentioned, the more information we are able to provide to the minority community with confidence, the more lives we can help save.

Thanks for wanting to share.

Sincerely,

Theodore B. Johnson
Director Minority Outreach
