Philadelphia, PA 19102

Dear Curtis,

We are writing to express our thanks to you for participating in our community health seminar during the summer. The course has just been completed and student evaluations are in. While we strongly felt that your presentation was outstanding, we always hold our breath until the students' evaluations are in. The students rated your presentation one of the best in the course.

Your insightful, yet informal, discussion of how HIV Infection relates to the health of West Philadelphians was perfect. We so very much appreciate both your time and your enthusiasm.

Sincerely,

Donald F. Schwarz, MD

Anthony L. Rostain, MD
