...of standing by while PATF blames poor, Black and other minority people for its own insensitivity and lack of interest in our needs

More Blacks and Latinos are dying of AIDS than whites in Philadelphia--and how does PATF respond? By firing its only staff person dedicated to minority concerns.

<div align="center">**IT'S TIME WE DID SOMETHING ABOUT IT!**</div>

Two-thirds of PATF's money comes from City government. We demand an immediate investigation of PATF's racist operations by City Hall. We demand an end to City funding for PATF's ineffective, discriminatory programs. We demand that PATF immediately devote the majority of its financial resources to the majority of people in need of AIDS education and services--Philadelphia's Black, Latino and poor communities.

Because poor people are dying while PATF plays its public relations games to cover up its inaction and lack of concern.
