

If you're black, you're more likely  
to die from AIDS than if you're white.

If you're black and you have AIDS, you're  
gonna die faster from AIDS than if  
you're white.

And you're more likely to do it alone.

# **It's about caring for each other.**

Now is the time to come together to care about each other. More and more of us are seeing friends and lovers coming down with this terrible disease.

We need to teach each other how to stop the spread of AIDS. We need to help each other when we get AIDS, to make sure that we get the services and the treatment we need.

**LEARN ABOUT  
HOW TO PROTECT YOURSELF AGAINST A.I.D.S.!**

**FIND OUT  
HOW YOU CAN HELP FIGHT A.I.D.S. IN THE BLACK COMMUNITY!**

**LEND YOUR HELPING HAND  
TO CARE FOR OUR BROTHERS WHO HAVE A.I.D.S.!**
