Dear Ms. Russell:

This letter is to follow-up on our conversation of February 13, 1989.

We are awaiting your scheduling of AIDS Education Workshops for the residents at the Youth Study Center.

At our meeting in mid January we discussed in detail what BEBASHI could provide to your facility. I do understand that scheduling in your institution is a monumental task that involves a number of people and departments.

The only information I need from you is:

Listing of times the workshops may occur Monday thru Friday
The contact person each night of the presentation
Duration of the schedule, it will be weekly or monthly

If there is any additional information you need, please contact me.

Sincerely,

Curtis Wadlington
Director of Project Operations
