October 19, 1988

Mr. Curtis Wadlington
Blacks Educating Blacks About
Sexual Health Issues
1319 Locust Street
Philadelphia, Pennsylvania 19107

Dear Mr. Wadlington:

As we approach the final meeting with the consultants who helped plan the National Conference on the Prevention of HIV Infection and AIDS in Racial and Ethnic Minorities in the United States held August 15-17, 1988, I want to express the thanks of Dr. Mason and staff of the Centers for Disease Control for your valuable contributions to the planning of this conference.

The purpose of the October 27 meeting is to evaluate and critique the August conference. Please be prepared to provide your comments on the aspects of the August conference that were most useful and those components of the program that fell short of our objectives.

A tentative copy of the agenda is enclosed.

The meeting will be held October 27, from 8:30 a.m. to 5:00 p.m. at the Wyndham Hotel, 125 10th Street, N.E., Atlanta, Georgia (telephone (404) 873-4800). Hotel and airline reservations have been changed for arrival on Wednesday evening.

Again, we thank you for your tremendous support and contribution to the August conference, and look forward to our wrap-up evaluation later this month.

Sheila Cort, M.P.H.
Minority Conference
Coordinator

Gary R. Noble, M.D.
Assistant Surgeon General
Deputy Director (AIDS)
