West Philadelphia Collaborative Program for Child Health

The West Philadelphia Collaborative Program for Child Health (WPCPCH) was founded in 1989 to improve the health and well-being of young people in West Philadelphia. WPCPCH brings together agencies, professionals, community leaders, and neighbors to raise awareness, expand resources, and develop new strategies to promote child and adolescent health.

WPCPCH is a collaborative effort of The Children's Hospital of Philadelphia, Philadelphia Child Guidance Clinic, and the University of Pennsylvania Schools of Medicine, Nursing and Social Work. It is supported by a grant from the Robert Wood Johnson Foundation.
